New Total:	\$0.00	200.0

Specific Elements

Description of Work:
TRAVEL Required: Yes

GENERAL SITE DESCRIPTION:

The Hillcrest Industries facility collects boiler slag material (hardened residue collected from off-site coal boilers) and processes it into abrasive blast media (sandblasting materials). The facility also processes glass fragments (cullet) into reflective road striping beads and abrasive blast media. Reportedly since May 2012, a fire has been smoldering in a pile of glass/plastic bottles which covers an area of approximately one acre and is 60 feet high. The bottles are recycled by the company to manufacture their product.

In accordance with the Assessment Activities Section in the SOW , RST 2 shall provide removal site assessment support and provide the following activities :

1. Prepare a health and safety plan to be provided to the OSC by September 13, 2012.

2. Prepare a sampling plan (QAPP) to be provided to the OSC by September 14, 2012.
3. Provide four personnel with Level B and/or C PPE capability. Field work will require approximately one week to complete. Mobilization has already occurred.
4. Provide summa canisters and real time air monitoring instruments to include four particulate monitoring instruments.
5. Secure a laboratory to conduct TO-15 analysis of the summa canister air samples with 24 hour verbal turnaround time and 48 hour written turnaround time.
6. Provide data validation of all laboratory results.
7. Utilize the summa canisters to collect air samples as directed by the OSC.
8. Conduct air monitoring using Area Rays and particulate monitoring instruments.
9. Maintain a Site log of activities and document all substantial events which occur at the Site into a logbook. Provide copies of the logbook to the OSC following field activities.
10. Maintain a Site Photo Log of activities. Provide copies of the Site Photo Log to the OSC following field activities.
11. Provide a draft trip report which includes the COCs and a map indicating the sampling locations to the OSC two days after the completion of sampling activities.
